P. O. Box 96

Willimantic, Connecticut 06226

## PREFACE

*Listings of Residential Facilities for the Mentally Retarded* is an abridgement (brief) of the *Directory of Residential Facilities for the Mentally Retarded* which is available from the American Association on Mental Deficiency, P. O. Box 96, Willimantic, Connecticut 06226, for \$3.00 per copy. The Directory contains for each facility listed information such as admission policies, resident population, bed capacity, age levels, levels of retardation, program, personnel, residential units, residents per room, and fees. The data within the Directory are summarized in a special chapter in the volume under the title, "A Census of Public and Private Residential Facilities for the Mentally Retarded in the United States and Canada."

The *Listings of Residential Facilities for the Mentally Retarded* identifies public and private facilities for the mentally retarded under the appropriate state and Canadian province. These facilities are listed alphabetically by city within the state. The chief administrative officer also is listed as well as total resident population and rated bed capacity. Should there be a need for more complete information for a particular facility, a copy of the Directory should be obtained (see inside back cover).

Glenn E. Milligan, Ed.D.

# DIRECTORY OF RESIDENTIAL FACILITIES FOR THE MENTALLY RETARDED

A National Directory of Public and Private Residential Facilities (Schools, Hospitals, Homes) for the Mentally Retarded in the United States and Canada

Published by the

AMERICAN ASSOCIATION ON MENTAL DEFICIENCY

1965

The American Association on Mental Deficiency has, since 1954, published a separate section of the official Directory of the Association entitled *Listings of State and Private Schools and Homes for the Retarded*. In the 1965 Directory, a new size, format, and composition have been used to add to its readability, and its continued usefulness.

Four hundred forty-two residential facilities have been listed including 153 State and Province facilities, and 289 private facilities with considerable detail about residential population, bed capacity, age levels, levels of retardation, program, personnel, residents per room, and fees. A large proportion of all facilities listed has this detailed information reported.

Who is the audience for this Directory? It might well be you and other persons who desire to know the location of a particular facility, or someone who wants a listing of facilities in a given state or area. Agencies, associations, practitioners, and others will find the Directory an invaluable tool and reference source.
